

The background features a series of concentric, rounded square borders in shades of light green and teal. In the center, there is a large, irregular, light blue blob shape. Overlaid on this blob is a white rectangular box containing text.

100 random blobs

April the 28th, 2016 — Vasilis van Gemert

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
